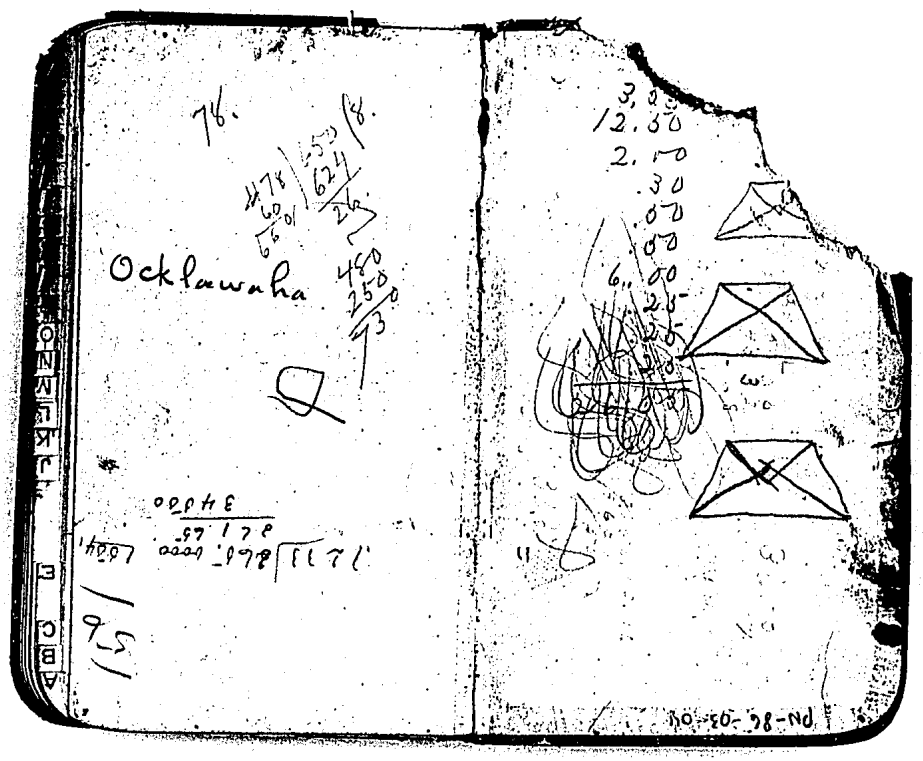
Pocket Notebook, PN-86-03-04

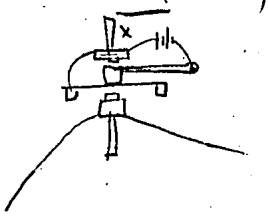
This notebook covers the periods March and October 1886. Most of the entries are by Edison. Included are notes and drawings relating to the phonoplex, a hearing aid, lamp filaments, and kerosene lamps. There are also notes by Edison to his patent attorney, Richard N. Dyer, regarding an interference with Frank Sprague. In addition, there are entries in Mina Edison's hand pertaining to household accounts and suppliers. The front cover is stamped "Address." The book is unpaginated, and it has been used in both directions. Approximately 60 pages have been used. Numerous pages have been torn out of the book.



Ocklawaha
ABC EJUNIOR

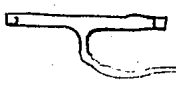
March 2 1886

Pass strong currents through solutions & then test with their proper reagents, also subject to field of powerful magnet see what changes if any



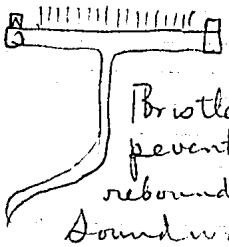
Phenakistiscope X Lifts weight nearly upon eye throws it upon ceiling when whole power of weight is taken down screen

Deaf March 4 1886



Jag

Vacuum – also air – Hydrogen
CO_2 under varying pressure
also. Ether –



Bristles etc
prevent

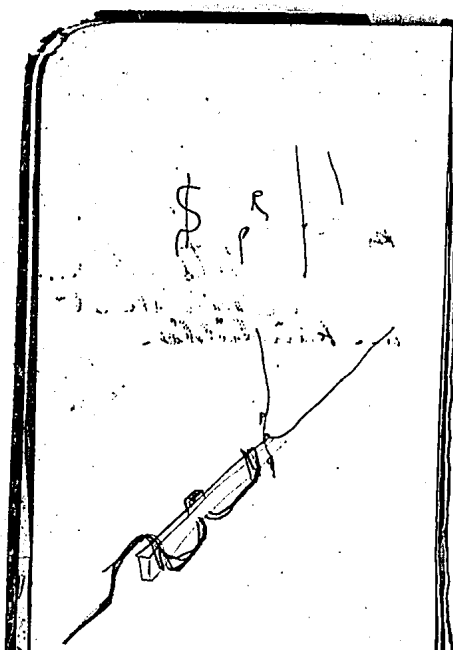
Monday —
ED.

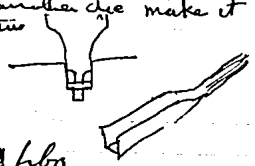


with the new clamp Gaiwalt is making use platinum foil around Carbon & screw into a springy socket of platinum

get some apple wood also box wood engr fibres &

Oct 3 1886

clamp out end of platinum then mandrel die make it square then



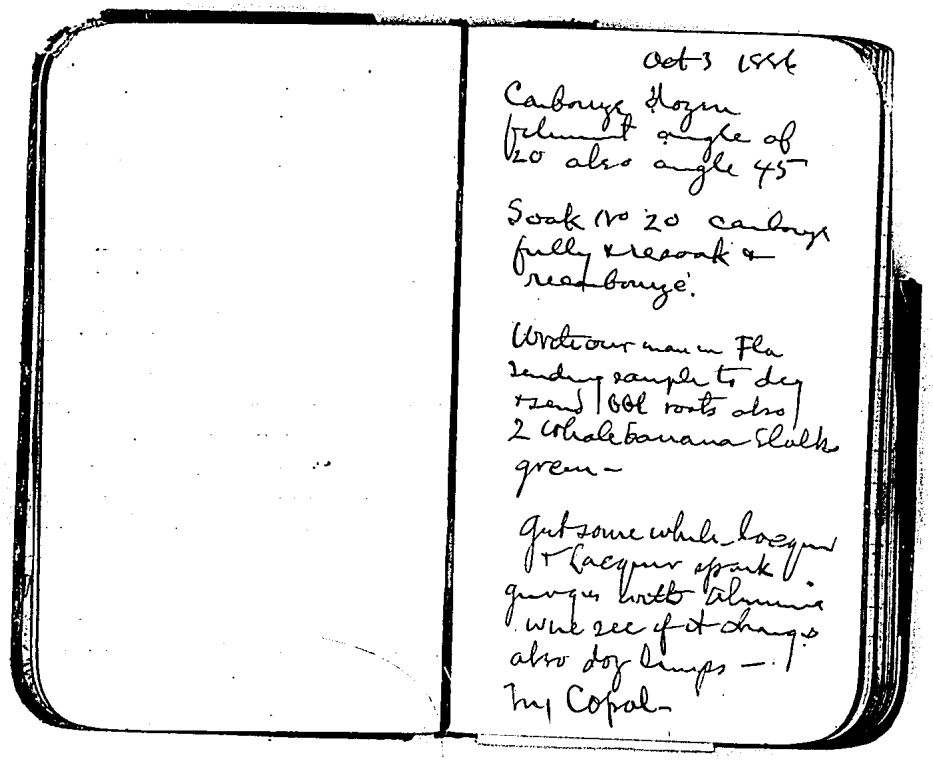
fibre

get some Electrotypers plumbago put some plumbago on — also put some on bottom Cup put fibre on & then with plunger puts it hard then add more plumbago & take fibre piece

Oct 3 1886

+so on —

Make Moulds of Drotum + plumbago pieces — See of Long Cylinder dies for saw plumbago a veg carbon Moulds — Draw Manilla through die after it has been soaked in following Sugar Caramel Liquorice Starch Tragacanth Linseed Mucilage, Gum arabec Rosin. dry the fibre then with hot die, also through hot oil to soften burnt material draw down dry hard dry + carbonize Try all the fibres this day — Also bamboo



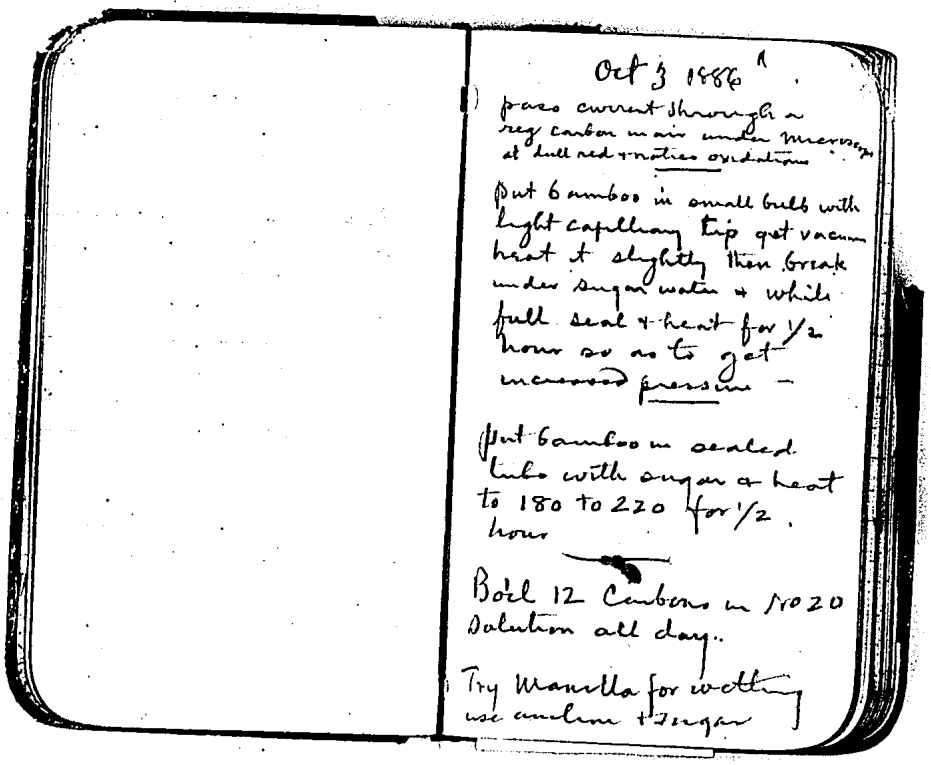
Oct 3 1906

Carbonize Hoyer
Aluminum angle of
20 also angle 45°

Soak No 20 carbonize
fully & resoak &
neat bonze.

Write our man in Fla
sending samples to dry
& send Cocoa roots also
2 whole banana stalks
green -

Get some whole lacquer
& lacquer spark
gauges both Aluminum
& see if it changes
also dry lumps -
Buy Copal -



Oct 3 1886

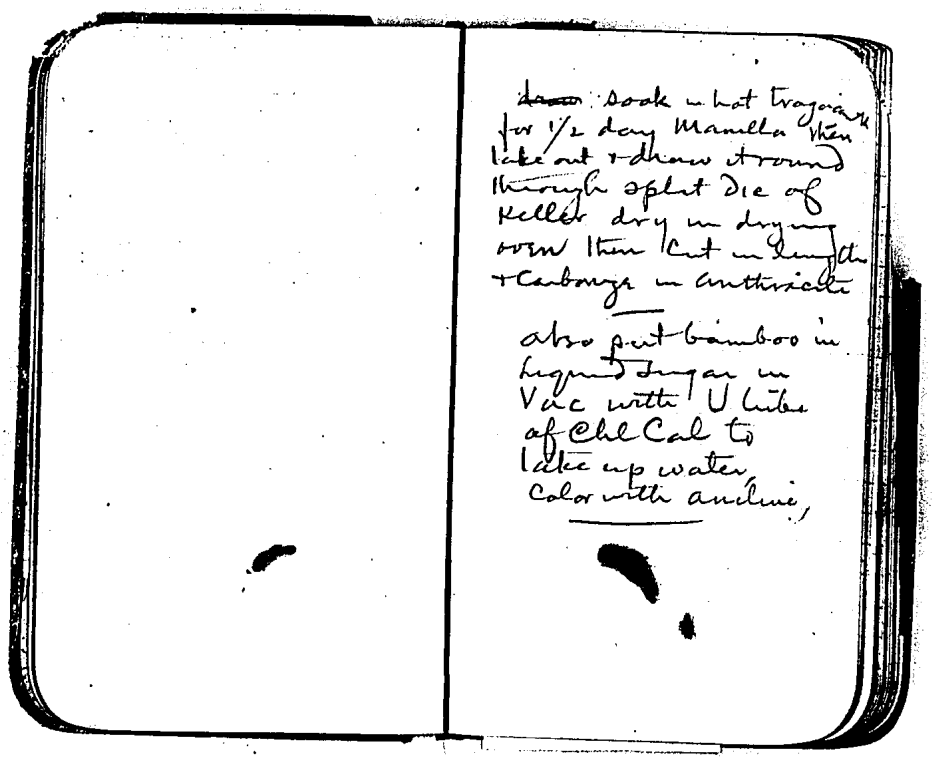
pass current through a reg carbon in air under microscope at dull red + notice oxidation

put 6 bamboo in small bulb with light capillary tip get vacuum heat it slightly then break under sugar water + while full seal + heat for 1/2 hour so as to get increased pressure -

put 6 bamboo in sealed tube with sugar + heat to 180 to 220 for 1/2 hour

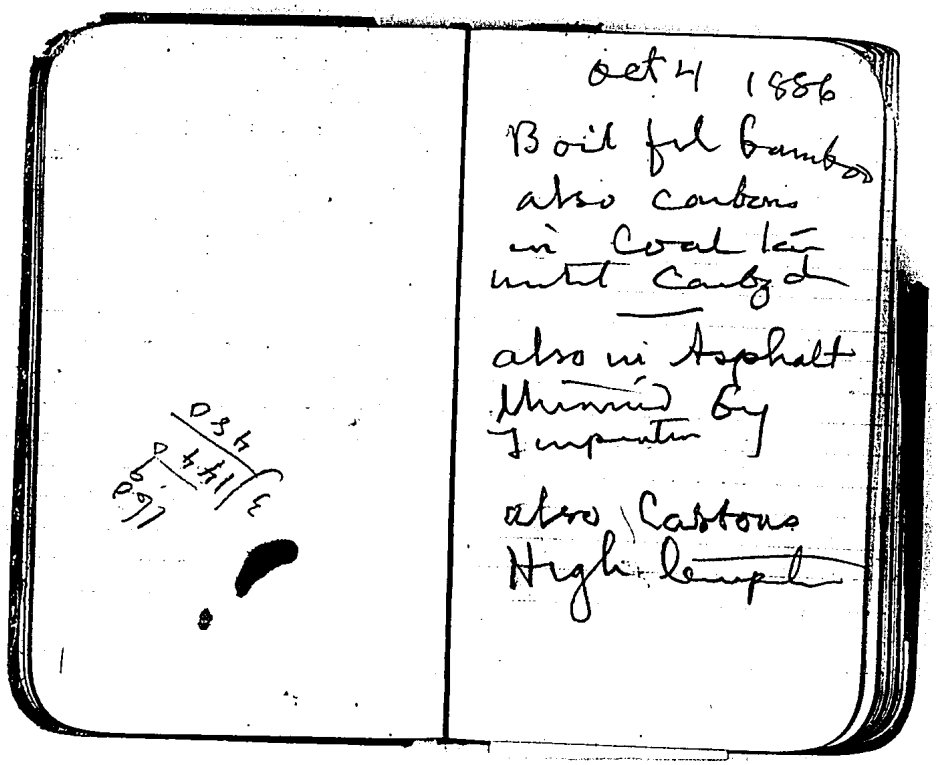
Boil 12 Carbons in 1020 Solution all day.

Try Manilla for wetting use emulsion + sugar



~~Soak~~ Soak in hot tragacanth for 1½ day Manilla then take out + draw it round through splint die of Keller dry in drying room then Cut in length + Carbonize in antithiscle

also put bamboo in Sugar in Vac with U tubes of Chl Cal to take up water, Color with aniline,



oct 4 1886

Boil fil bamboo

also carbons

in Coal tar

mixed Carbon

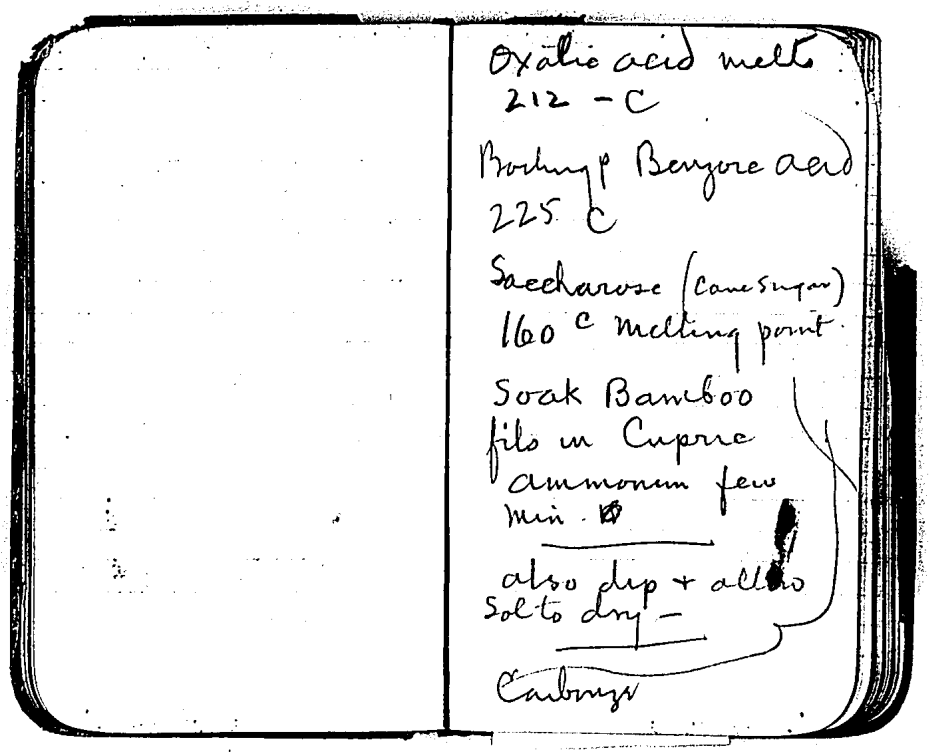
also in Asphalt

Mixed by

Impuntin

also Castons

High lamps



Oxalic acid melts
